

Outlaw gGmbH

We will find a way.
Together.

Outlaw gGmbH - throughout Germany we have more than 180 teams and facilities where some 5,000 children, adolescents and their families receive support and counseling. Our greatest strength are our more than 1,400 employees who invest all their competence and creativity in their work. We offer flexible, innovative support programs that meet the needs of children, adolescents and their families - regardless of religious or political views.

Whether in living groups, family-like programs or home-visiting support, in daycare facilities, youth centers, school truancy projects, after-school centers, neighborhood centers and multi-generational projects or working with refugees - it is our commitment to always open up as many chances as possible for people, there where they live.

Outlaw gGmbH is a state-approved child and youth welfare services provider and a member of the German Federation of Welfare Associations (Deutscher Paritätischer Wohlfahrtsverband). Please visit our website for more information on our concepts and programs: www.outlaw-ggmbh.de

Parenting Support

Wir Finden den Weg. Gemeinsam.
Outlaw
Kinder- und Jugendhilfe

Individual, customized and flexible one-stop support

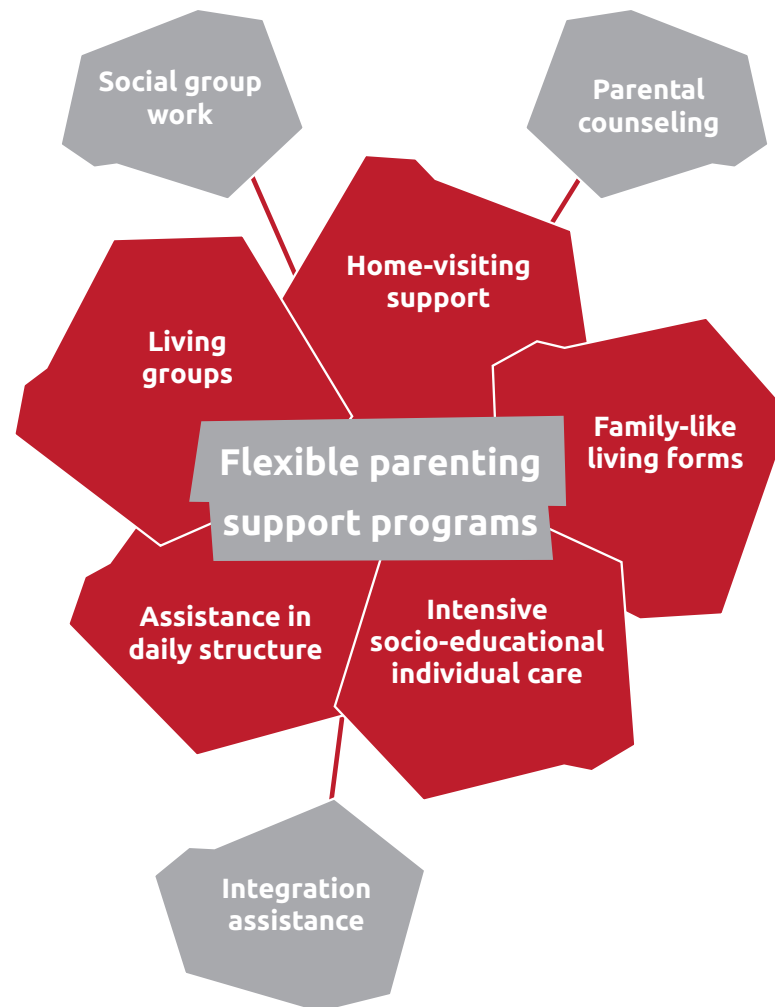

One central element of our parenting support programs is the development of aid specifics that are customized to the individual life situations of the young persons and families in need. Our offers are flexible arrangements that can be implemented in the form of various, combinable programs based on a mutual socio-educational stance.

To guarantee our convictions are put into practice, we work at our many locations with multi-professional teams where educational professionals receive the support of (family) therapists, family midwives, pediatric nurses or nutritionists. Our flexible, one-stop parenting support programs afford us the opportunity to react individually to the needs of young people without a change of institution or caregiver.

Our programs range from home-visiting support within the family and parental counseling to partly residential solutions, assistance structuring the day-to-day as well as residential offers in living groups or in your own home. Our entire range of offers and services, all included in the German Social Act SGB VIII, can be combined.

Our programs

- Living groups
- Family-like housing forms
- Assisted living
- Assistance in daily structure
- Parent-child support
- Socio-educational family support
- Integration support
- Parental counseling
- Intensive socio-educational one-on-one case work
